TIME SUSPENDED

There are places where time seems to slow its course, where beauty becomes a tangible experience. The Domaine de la Rouillère is one of those rare places, where the magic of the Provençal terroir blends with the timeless elegance of a design conceived as a work of art.

What you are about to discover is not a mere terrace design. It is an invitation to travel, a promise of precious moments where refinement converses with nature. Each page that follows tells the story of a unique creation, where Provençal tradition meets innovation, where every detail has been conceived to transcend the ordinary.

Let yourself be carried along this architectural promenade, where noble materials mingle with plays of light, where design embraces the natural curves of the landscape. For here, in this theatre of vines and sky, we have created much more than a space — we have sculpted moments of life.

This presentation is a window opening onto an exceptional art of living. Turn the page, and let the magic work...

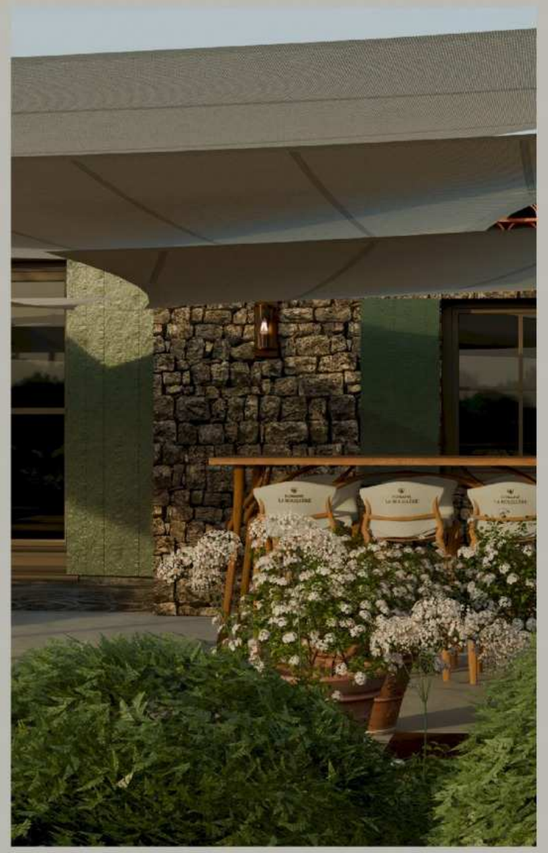
THE ART

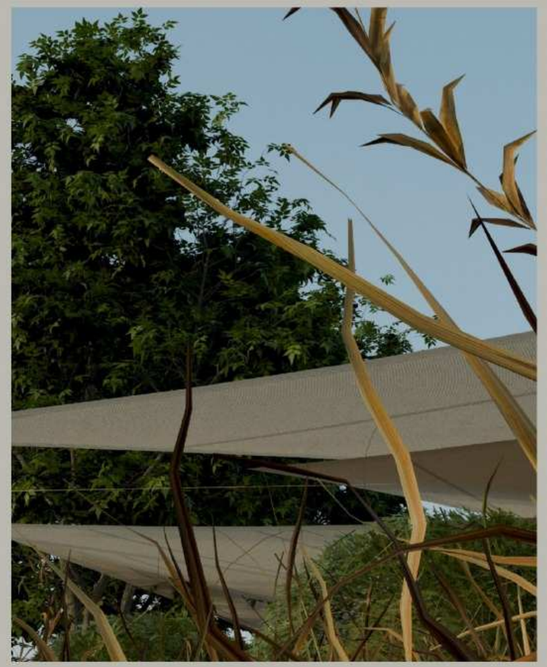
OF THE POSSIBLE

In this exceptional place where the earth embraces the sky, where the vines paint their living pictures on the hills of Saint-Tropez, I wanted to create a work that transcends the simple notion of a living space. My unique path, woven from pure technique and ancestral craftsmanship, nourished by Eastern medicine and voyages at sea, has taught me that true beauty is born of the harmony of opposites. This deep understanding guides every aspect of my creation at the Domaine de la Rouillère.

ALBARELLO

"IN THIS NATURAL THEATRE WHERE VINES AND SKY MEET, EVERY ELEMENT TELLS A STORY OF BEAUTY AND HARMONY."





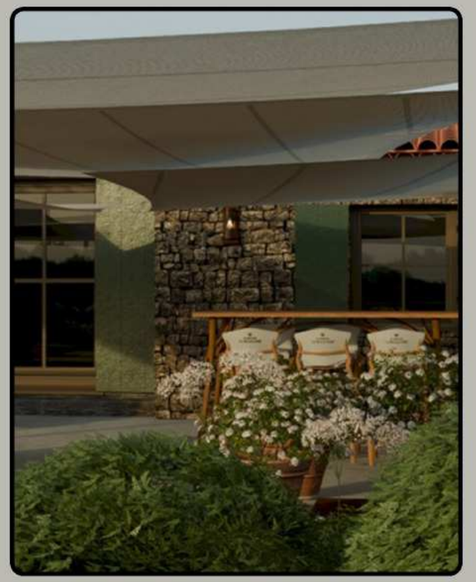
"EVERY SEAT BECOMES A BALCONY ONTO INFINITY, AN INVITATION TO CONTEMPLATION."

"WOOD DANCES WITH LIGHT, SCULPTING A SPACE WHERE CONVIVIALITY BECOMES ART."

The layout unfolds like a carefully orchestrated ballet in which each element finds its rightful place. The sofas, true sculptures with contemporary lines, are dressed in fabrics in ecru and soft grey tones that invite contemplation. Their light wood frame converses with the coffee tables of pure form, creating a lounge space of rare elegance. The furniture seems to float on the pale floor, defying gravity while asserting its presence.

"WHERE CENTURIES-OLD STONE MEETS CONTEMPORARY DESIGN, A TIMELESS HARMONY IS BORN."

The high counter and its stools embody my vision of modern design rooted in tradition. Their organic lines, inspired by vine stocks, create a series of harmonious curves that seem to have been sculpted by time itself. The light wood of their frame brings warmth and naturalness, while the comfortable seats invite conviviality, reflecting my conviction that design must above all serve the human experience.



ALBARELLO

"The nobility of the materials converses with the purity of the lines, creating a symphony of textures and forms."

ABOVE THIS COMPOSITION, THE SAILS, INHERITED FROM MY KNOW-HOW IN THE FAMILY SAIL LOFT, ARE TENSIONED WITH PRECISION TO DRAW SOFT GEOMETRIC FORMS THAT FILTER THE PROVENÇAL LIGHT. THEIR SAND COLOUR HARMONISES PERFECTLY WITH THE NATURAL TONES OF THE WHOLE, CREATING A CHOREOGRAPHY OF MOVING SHADOWS ON THE TERRACE. THE WOODEN MASTS THAT SUPPORT THEM RISE WITH GRACE, THEIR APPARENT SIMPLICITY CONCEALING A SOPHISTICATED TECHNICAL DESIGN, THE FRUIT OF MY YEARS OF EXPERIENCE AT SEA.

IF THIS CREATION REPRESENTS THE PERFECT ALLIANCE BETWEEN TRADITION AND MODERNITY, BETWEEN TECHNIQUE AND EMOTION, IT IS ONLY ONE EXPRESSION AMONG MANY OF THE INFINITE POSSIBILITIES OPEN TO US.

EACH NEW PLACE, EACH NEW CHALLENGE IS AN OPPORTUNITY TO PUSH BACK THE LIMITS OF CREATION, TO REINVENT THE ART OF LIVING IN HARMONY WITH OUR ENVIRONMENT.

TOMORROW IS BEING WRITTEN TODAY, IN THE SUBTLE ALCHEMY BETWEEN DREAM AND MATTER. AND SOMEWHERE, PERHAPS, YOUR SPACE IS WAITING TO BE TRANSFORMED IN ITS TURN...
